A Letter From The Mayor

Dear Resident,

The City of Albany provides one of the most comprehensive waste collection and recycling programs in New York State, and over the years, this initiative has been successful thanks to the cooperation and dedication of residents like you.

Today, we continue to work toward decreasing the amount of waste brought into our landfill by choosing to recycle, and by expanding current collections to now include #3-7 plastic containers. This initiative is a positive investment in our City's future and will have a strong impact on both the economy and the environment. In addition, we offer a number of special waste collection programs and other projects to increase awareness of smart waste management and the benefits it adds to our community.

This brochure outlines these programs as well as Albany's Trash and Recycling Guidelines. I hope you will keep it handy for future reference, and I thank you for your cooperation. Together, we can ensure that our community remains clean, and the best place to live, work and raise a family.

Sincerely,

A handwritten signature in black ink that reads "Gerald D. Jennings".

Gerald D. Jennings
Mayor, City of Albany

Introduction

The City of Albany collects weekly-generated trash from residential dwellings with (4) four or fewer units located on a single property. All others, including mixed occupancy buildings, must contract for private collection. Excessive quantities of trash are subject to a bill and a fine.

Trash should be placed curb side, not before 7:00 p.m. or dusk but before 12:00 a.m. midnight, the evening prior to the designated waste collection and recycling day. Please see the map on the back page of this brochure to determine your Collection Day.

The City of Albany provides each resident with two (2) recycling containers a "Blue Bin" and a "Green Bin" at no charge. The blue bin is for glass, metal cans, and plastic containers. The green bin is for all types of paper and cardboard including shredded paper and phone books.

All Holidays will have normal trash and recycling pickup.

Exception

During all Snow Emergencies the City of Albany will temporarily suspend collection of recyclables for the duration of the snow emergency. We now require all residents; whose normal recycling pickup falls on a day a snow emergency is in effect, to hold their recycling until the following week's pickup. Trash pickup will be collected and should be put out as usual.

New and Exciting

The City of Albany has expanded its curb side recycling program to include 3-7 plastic containers. DGS will now collect all plastic containers with the numbers 1-7 imprinted on the bottom. With these additions most plastic containers will now be recyclable, and therefore will not end up in the landfill.

The following list is some examples of containers that are now included in the residential curb side collection program.

- Plastic Drinking Cup
(i.e. Red, Blue and Green Cups)
- Yogurt Containers
- Butter Containers
(i.e. Butter & Margarine Spread)
- Plastic Food Containers
(i.e. Chinese Soup Containers & Olive Containers)
- Pancake Syrup Bottles
- Prescription Pill Bottles
NOTE: All pills must be removed prior to disposal.
- All plastic containers with the number 1 thru 7 stamped on the bottom of the container.

It's easy being "Green" Green Bin Program

**Have you ever wished your recycling bin was bigger?
We have the solution.**

The City of Albany is now offering, free of charge, an additional "Green" recycling bin to city residents to be used for paper and cardboard only.

- This bin does not replace the blue bin provided to you by the city.
- You will still use the blue bin for your glass, cans, and plastic containers.
- You will then put your newspapers, shredded paper and cardboard loose in the green bin.

By separating your glass, cans, and plastics from your paper it will enable you to recycle more of each item.

Residents who do not generate enough paper for 2 recycling bins may continue to use the blue bin.

Glass, Metal, & Plastic

Include

Glass Containers

Green, Blue, Brown, & Clear

- Food and Beverage Containers
- Liquor & Wine Bottles
- Deposit Bottles
- Canning & Food Jars

Plastic Containers, Codes 1 - 7

- Soda Bottles

City Code Reminders

(Code: 313-5 & 313-8)

HOUSEHOLD TRASH & RECYCLING

The purpose of Albany's waste collection and recycling program is to collect normal weekly-generated household trash and recycling from residential properties with 4 units or less. Items should only be placed curb side the evening prior to your scheduled collection day not before 7 p.m. and/or dusk but before 12 midnight. Excessive quantities of trash and recycling placed curb side are subject to billing and a fine. Excessive is anything that is not manageable by 1 person, unable to be loaded into a collection vehicle and takes laborers more than 4 trips between the pile and the vehicle.

(Code: 313-4 & 313-8)

PREPARATION AND PLACEMENT OF HOUSEHOLD REFUSE FOR COLLECTION

Prior to placement for collection, all waste containers and waste stored in plastic bags for weekly pickup must be stored in areas away from front yards, sidewalks, or other public rights of way affecting the visual and aesthetic character of city streetscape.

(Code: 313-47)

MAINTENANCE REQUIREMENTS

All vacant lots within the City of Albany shall be kept clean and free of litter, debris and hazards. Ground cover shall be properly established and maintained. Heavy undergrowth shall be eliminated.

(Code: 313-51.1)

RESPONSIBILITY OF PROPERTY OWNERS

All properties and/or adjoining public ways in the City of Albany must be maintained free of litter, debris and excessive accumulation of animal waste.

(Code: 313-4B)

YARD WASTE

At no time should leaves, grass clippings and other yard waste debris be raked into the street. These items should be placed in a biodegradable paper bag and placed curb side the evening prior to your collection day.
NO PLASTIC BAGS

(Code: 313-4 & 313-8)

RESIDENTIAL CONSTRUCTION DEBRIS

Residential construction debris will be picked up curb side as long as it is neatly containerized, manageable by 1 person, able to be loaded into a collection vehicle and takes laborers no more than 4 trips between the pile and the vehicle. Building material should not be placed curb side more than twice a month.

Violators of these codes can be subject to a fine plus the cost of cleanup.
